

## **Epidemiologist Tenure-Track or Tenured Investigator Position**

**Epidemiology Branch  
National Institute of Child Health and Human Development  
National Institutes of Health (NIH)  
Department of Health and Human Services (DHHS)**

A tenure-track or tenured investigator is being recruited to join the intramural Epidemiology Branch of the Division of Epidemiology, Statistics and Prevention Research at the National Institute of Child Health and Human Development. The Epidemiology Branch conducts etiologic and methodologic research in the area of reproductive, perinatal and pediatric epidemiology. Candidates for this position will be expected to conduct epidemiologic research and to actively support the mentoring mission of the Branch. The successful candidate will be expected to develop an independent research area that complements or expands the Branch's current etiologic or methodologic research, including determinants of and threats to male and female fecundity and fertility, pregnancy loss, hypertensive disorders of pregnancy including preeclampsia, obstetrical management of the parturient woman, fetal and infant growth, preterm birth, birth defects, and child/adolescent injuries and drowning. Candidates with research expertise in quantitative methods, genetic or biomolecular epidemiology are particularly encouraged to apply. Eligible candidates must have either an earned doctoral degree in epidemiology or a closely related field or a medical degree and advanced graduate training in epidemiology (M.S., M.P.H. or equivalent), and a record of publications showing an ability to design, conduct, analyze and interpret data from epidemiology studies, preferably in the subject area of the Branch.

Salary is competitive and commensurate with experience and accomplishments. Civil Service benefits apply including retirement, health insurance, life insurance, and a Thrift Savings Plan. Candidates may be eligible for the NIH Loan Repayment Program (<http://www.LRP.NIH.gov>).

For additional information regarding substantive issues of the position, please contact Dr. Germaine M. Buck Louis, PhD, Chief, Epidemiology Branch, DESPR (301-496-6155; [louisg@mail.nih.gov](mailto:louisg@mail.nih.gov)). Further information about DESPR may be obtained at: <http://www.nichd.nih.gov/about/despr/epi.htm>. For technical questions regarding the application process, contact Kaye Beall (301-496-6324; [beallk@mail.nih.gov](mailto:beallk@mail.nih.gov)).

To apply, please submit a cover letter, statement of current and future research interests, curriculum vitae, and three letters of reference to: Kaye Beall, NICHD, NIH, 6100 Executive Blvd, Room 7B05, Rockville, MD, 20852.
